## Belvidere Cluster Wide Mathematics Curriculum 1st grade Updated Fall 2018

| All Belvidere Cluster curriculum and instruction areas are aligned to the New Jersey Student <br> Learning Standards (NJSLS) in accordance with the NJ Department of Education's curriculum <br> implementation requirements. |
| :--- |
| Interdisciplinary Connections |
| - English Language Arts |
| - Science and Scientific Inquiry (Next Generation) |
| - Social Studies |
| - Technology |
| - Visual and Performing Arts |
| Technology Standards and Integration |
| iPads |
| eSpark |
| Go Math online resources |
| Xtra Math |
| Interactive SmartBoard activities |
| NJSLA Technology |
| 8.1.2.A. 2 |
| Create a document using a word processing application. |
| 8.1.2.A.4 |
| Demonstrate developmentally appropriate navigation skills in virtual environments (i.e. |
| games, museums). |
| 8.1.P.B. 1 |
| Create a story about a picture taken by the student on a digital camera or mobile device. |
| 8.1.P.C. 1 |
| Collaborate with peers by participating in interactive digital games or activities. |
| 8.1.2.E. 1 |
| Use digital tools and online resources to explore a problem or issue. |

## CAREER EDUCATION (NJDOE CTE Clusters)

- Education \& Training
- Finance
- Information Technology
- Science, Technology, Engineering \& Mathematics (STEM)

21st Century Skills/ Themes

- Financial, Economic, Business and Entrepreneurial Literacy
- Creativity and Innovation

```
- Critical Thinking
- Problem Solving
- Communication
- Collaboration
- Information Literacy
CRP1. Act as a responsible and contributing citizen and employee.
CRP2. Apply appropriate academic and technical skills.
CRP3. Attend to personal health and financial well-being.
CRP4. Communicate clearly and effectively and with reason.
CRP5. Consider the environmental, social and economic impacts of decisions.
CRP6. Demonstrate creativity and innovation.
CRP7. Employ valid and reliable research strategies.
CRP8. Utilize critical thinking to make sense of problems and persevere in solving them.
CRP9. Model integrity, ethical leadership and effective management.
CRP10. Plan education and career paths aligned to personal goals.
CRP11. Use technology to enhance productivity.
CRP12. Work productively in teams while using cultural global competence.
```

## Integrated Accommodations and Modifications

## Special Education

- Printed copy of board work/notes provided
- Additional time for skill mastery
- Assistive technology
- Behavior management plan
- Center-Based Instruction
- Check work frequently for understanding
- Computer or electronic device utilization
- Extended time on tests/ quizzes
- Have student repeat directions to check for understanding
- Highlighted text visual presentation
- Modified assignment format
- Modified test content
- Modified test format
- Modified test length
- Multiple test sessions
- Multi-sensory presentation
- Preferential seating
- Preview of content, concepts, and vocabulary
- Reduced/shortened written assignments
- Secure attention before giving instruction/directions
- Shortened assignments
- Student working with an assigned partner
- Teacher initiated weekly assignment sheet
- Use open book, study guides, test prototypes
- Cubing activities
- Exploration by interest
- Flexible grouping
- Goal setting with students
- Jigsaw
- Mini workshops to re-teach or extend skills Open-ended activities
- Think-Pair-Share
- Varied supplemental materials

## ELL

- Allowing students to correct errors (looking for understanding)
- Teaching key aspects of a topic Eliminate nonessential information Using videos, illustrations, pictures, and drawings to explain or clarify
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slideshows, videos, etc.) to demonstrate student's learning
- Allowing students to correct errors (looking for understanding)
- Allowing the use of note cards or open-book during testing
- Decreasing the amount of work presented or required
- Having peers take notes or providing a copy of the teacher's notes
- Modifying tests to reflect selected objectives
- Providing study guides
- Reducing the number of answer choices on a multiple choice test
- Tutoring by peers
- Explain/clarify key vocabulary terms

## At Risk

- Allowing students to correct errors (looking for understanding)
- Teaching key aspects of a topic Eliminate nonessential information allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slideshows, videos, etc.) to demonstrate student's learning
- Allowing students to select from given choices .
- Allowing the use of note cards or open-book during testing
- Collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test
- decreasing the amount of work presented or required.
- Having peers take notes or providing a copy of the teacher's notes
- Marking students' correct and acceptable work, not the mistakes
- Modifying tests to reflect selected objectives
- Providing study guides
- Reducing the number of answer choices on a multiple choice test
- Tutoring by peers
- Using authentic assessments with real-life problem-solving
- Using true/false, matching, or fill in the blank tests in lieu of essay tests
- using videos, illustrations, pictures, and drawings to explain or clarify
- Flexible grouping
- Goal setting with students
- Jigsaw
- Mini workshops to re-teach or extend skills Open-ended activities
- Think-Pair-Share
- Varied supplemental materials

Gifted and Talented

- Alternative formative and summative assessments
- Choice boards
- Games and tournaments
- Group investigations
- Independent research and projects Interest groups for real world application
- Learning contracts
- Leveled rubrics
- Multiple intelligence options
- Personal agendas
- Project-based learning
- Problem-based learning
- Stations/centers
- Think-Tac-Toes
- Tiered activities/assignments
- Tiered products

504

- Printed copy of board work/notes provided
- Additional time for skill mastery
- Assistive technology
- Behavior management plan
- Center-Based Instruction
- Check work frequently for understanding
- Computer or electronic device utilization
- Extended time on tests/ quizzes
- Have student repeat directions to check for understanding
- Highlighted text visual presentation
- Modified assignment format
- Modified test content
- Modified test format
- Modified test length
- Multiple test sessions
- Multi-sensory presentation
- Preferential seating
- Preview of content, concepts, and vocabulary
- Reduced/shortened written assignments
- Secure attention before giving instruction/directions
- Shortened assignments
- Student working with an assigned partner
- Seacher initiated
- weekly assignment sheet
- Use open book, study guides, test prototype
- Exploration by interest
- Flexible grouping
- Goal setting with students
- Mini workshops to re-teach or extend skills Open-ended activities
- Think-Pair-Share

## Evidence of Learning

Possible Formative Assessments:

- SMART Response questions used throughout the unit.
- Workbook pages

Possible Summative Assessments:

- Unit Checklist

Possible Benchmark Assessments:

- Go Math Benchmark
- Unit Assessment

Possible Alternative Assessments:

- Choice boards - projects
- Skit

Suggested Lesson Plan

## Topics

Topic \#1: Calendar Routines
Topic \#2: Days of the Week
Topic \#3: Number of Days of School
Topic \#4: Weather
Topic \#5: Time
Topic \#6: Number of the Day
Topic \#7: Beat the Clock
Materials and Curriculum Resources:

- https://njctl.org/courses/math/1st-grade/calendar-math/
- Calendar, clocks, counting cards

Lesson Components
21st Century Skills

- Financial, Economic, Business, and Entrepreneurial Literacy

21st Century Themes

- Critical Thinking and Problem Solving
- Communication and Collaboration
- Life and Career Skills

CRP3. Attend to personal health and financial well-being.
CRP4. Communicate clearly and effectively and with reason.
CRP8. Utilize critical thinking to make sense of problems and persevere in solving them.
CRP9. Model integrity, ethical leadership and effective management.
CRP10. Plan education and career paths aligned to personal goals.

|  Belvidere Clusterwide <br> Mathematics Curriculum  <br> 1st Grade  <br> Unit Plan \#: 1 Numbers to 120  |  |  |
| :---: | :---: | :---: |
| Title: Numbers to 120 |  |  |
| Grade Level: 1 |  | Approximate |
| Unit Summary: <br> Students will study the structure of the whole number system. They will write, read (numeral and words), order and compare numbers to 120 . They will identify patterns in skip counting, distinguish between odd and even, and become fluent with a number line and number grid. |  |  |
| Learning Targets |  |  |
| PARCC Major Clusters; $\square$ Supporting Clusters; Additional Clusters |  |  |
| Domain: Number and Operations in Base Ten (NBT) |  |  |
| Clusters: <br> - Extend the counting sequence. <br> - Understand place value. <br> - Use place value understanding and properties of operations to add and subtract. |  |  |
| Standard \#s: | Standards: |  |
| 1.NBT. 1 | Count to 120, starting at any number less than 120. In this range, read and write numerals and represent a number of objects with a written numeral. |  |
| 1.NBT. 3 | Compare two two-digit numbers based on meanings of the tens and ones digits, recording the results of comparisons with the symbols >, =, and <. |  |
| 1.NBT. 5 | Given a two-digit number, mentally find 10 more or 10 less than the number, without having to count; explain the reasoning used. (Not assessed until unit 5) |  |
| Domain: Standards for Math Practice |  |  |
| Standard\#: | Standard: |  |
| MP1 | Making sense of problems and persevere in solving them. |  |
| MP2 | Reason abstractly and quantitatively. |  |
| MP3 | Construct viable arguments and critique the reasoning of others. |  |
| MP4 | Model with mathematics. |  |
| MP5 | Use appropriate tools strategically. |  |
| MP6 | Attend to precision. |  |
| MP7 | Look for and make use of structure. |  |
| MP8 | Look for and express regularity in | peated reasonin |
| Unit Essential Questions: <br> - What patterns exist in number names that can be used to understand and represent larger numbers? <br> - How can words and symbols be used to illustrate the comparison of numbers? <br> - What is the meaning of less than, greater than and equal to? <br> - How are ordinal numbers used in everyday? |  | Unit Enduring <br> - Numbers can identify, mea experiences. <br> - Quantities ca or numerals. |
| Unit Objectives: <br> - Students will be able to compare two given numbers between 0-100. <br> - Students will be able to count to 120. <br> - Students will be able to mentally find 10 more or less than a given number. |  |  |
| Evidence of Learning |  |  |

## Possible Formative Assessments:

- SMART Response Questions used throughout unit
- Quizzes
- Hold up number cards that are 10 more or 10 less than number shown
- Observation
- Homework

## Summative Assessment:

- Unit Test
- Chapter tests
- complete a 100 grid
- Drawings

Possible Benchmark Assessments:

- Go Math Benchmark
- Unit Assessment

Possible Alternative Assessments:

- Choice boards - projects
- Skit
- Demonstration
- Journaling
- Conferencing

Attend to personal health and financial well-being. <br> CRP4. Communicate clearly and effectively and with reason. |  |

CRP8. Utilize critical thinking to make sense of problems and persevere in solving them.
CRP9. Model integrity, ethical leadership and effective management.
CRP10. Plan education and career paths aligned to personal goals.

- SMART Response Questions used throughout unit
- Quizzes
- Homework
- Observation
- Classwork

Summative Assessment:

- Unit Test
- Performance Assessment modeling with base ten blocks

Possible Benchmark Assessments:

- Go Math Benchmark
- Unit Assessment

Possible Alternative Assessments:

- Choice boards - projects
- Skit
- Demonstration
- Journaling
- Conferencing

Suggested Lesson Plan

| Suggested Lesson Plan |  |
| :---: | :---: |
| Topics | Timeframe |
| Topic \#1: Subtracting Ten | 5 days |
| Topic \#2: Subtracting Multiples of Ten | 3 days |
| Quiz \#1 | 1 day |
| Lab: Subtracting Ten Dice Roll | 1 day |
| Topic \#3: Two Digit Minus One Digit | 3 days |
| Topic \#4: Two Digit Minus Two Digit | 1 day |
| Quiz \#2 | 2 days |
| Lab: Subtraction Spin |  |
| Topic \#5: Review/Assessment |  |
| Lab: Subtraction Around the Room |  |

## Lesson Components

21st Century Skills

- Financial, Economic, Business, and Entrepreneurial Literacy

21st Century Themes

- Critical Thinking and Problem Solving
- Communication and Collaboration
- Life and Career Skills

CRP3. Attend to personal health and financial well-being.
CRP4. Communicate clearly and effectively and with reason.
CRP8. Utilize critical thinking to make sense of problems and persevere in solving them.
CRP9. Model integrity, ethical leadership and effective management.
CRP10. Plan education and career paths aligned to personal goals.

| Belvidere Cluster Wide Mathematics Curriculum 1st Grade Unit Plan \#: 7 |  |  |
| :---: | :---: | :---: |
| Title: Time |  |  |
| Grade Level: 1 |  | Approximate |
| Unit Summary: <br> Students will gain an understanding of time to the hour and half-hour. They will demonstrate fluency in telling time in both digital and analog format. |  |  |
| Learning Targets |  |  |
| PARCC Major Clusters; Supporting Clusters; Additional Clusters |  |  |
| Domain: Measurement and Data |  |  |
| Cluster: <br> - Tell and write time. |  |  |
| Standard \#: | Standard: |  |
| 1.MD. 3 | Tell and write time in hours and half-hours using analog and digital clocks. |  |
| Domain: Standards for Math Practice |  |  |
| Standard \# |  | Standard |
| MP1 | Making sense of problems and persevere in solving them. |  |
| MP2 | Reason abstractly and quantitatively. |  |
| MP3 | Construct viable arguments and critique the reasoning of others. |  |
| MP4 | Model with mathematics. |  |
| MP5 | Use appropriate tools strategically. |  |
| MP6 | Attend to precision. |  |
| MP7 | Look for and make use of structure. |  |
| MP8 | Look for and express regularity in repeated reasoning. |  |
| Unit Essential Questions: <br> - What tools are used to measure time? <br> -Why is telling time important? <br> - How do we use clocks to tell time? <br> - What is the difference between analog and digital time? |  | Unit Enduring <br> - Telling time <br> - Time can be format <br> - An hour is m |
| Unit Objectives: <br> - Students will read and write time to the hour and half hour on an analog clock. <br> - Students will read and write time to the hour and half hour on a digital clock. <br> - Students will distinguish between the minute hand and the hour hand. |  |  |
| Evidence of Learning |  |  |
| Possible Formative Assessments: <br> - SMART Response Questions used throughout unit <br> - Quizzes <br> - Observation <br> - Matching analog and digital clocks <br> - Tlme Cards |  |  |
| Possible Summative Assessment: <br> - Unit Test |  |  |
| Possible Benchmark Assessments: <br> - Go Math Benchmark |  |  |

- Unit Assessment

Possible Alternative Assessments:

- Choice boards - projects
- Skit
- Demonstration
- Journaling
- Conferencing

## Possible Formative Assessments:

- SMART Response Questions used throughout unit
- Quizzes
- Performance Tasks: Measure and record length of objects by whole number of length units, order objects by length, compare lengths of objects.
Summative Assessment:
- Unit Test
- Performance Task - measure a variety of objects

Possible Benchmark Assessments:

- Go Math Benchmark
- Unit Assessment

Possible Alternative Assessments:

- Choice boards - projects
- Skit
- Demonstration
- Journaling
- Conferencing

| Suggested Lesson Plan |  |  |
| :--- | :---: | :---: |
| Topics |  |  |
| Topic \#1: Comparing Objects |  |  |
| • Comparing Two Objects |  |  |
| • Comparing Three Objects |  |  |
| - Ordering Three Objects |  |  |$\quad$ 3 days

CRP8. Utilize critical thinking to make sense of problems and persevere in solving them. CRP9. Model integrity, ethical leadership and effective management. CRP10. Plan education and career paths aligned to personal goals.

| Belvidere Cluster Wide Mathematics Curriculum 1st Grade <br> Unit Plan \#: 9 Geometry |  |  |
| :---: | :---: | :---: |
| Title: Geometry |  |  |
| Grade Level: 1 |  | Approximate |
| Unit Summary: <br> Students will gain an understanding of two-dimensional and three-dimensional shapes and the relationships between them. Students will observe, describe, compare, classify, represent, and build 2-D \& 3-D shapes. They will learn to use geometric language to describe and identify important features of shapes. In addition, the students will divide shapes into equal parts and label the parts as $1 / 2$ and $1 / 4$. |  |  |
| Learning Targets |  |  |
| PARCC Major Clusters; Supporting Clusters; Additional Clusters |  |  |
| Domain: Geometry |  |  |
| Cluster: <br> - Reason with shapes and their attributes. |  |  |
| Standard \#s: | Standards: |  |
| 1.G. 1 | Distinguish between defining attributes (e.g., triangles are closed and three-sided) versus non-defining attributes (e.g., color, orientation, overall size); build and draw shapes to possess defining attributes. |  |
| 1.G. 2 | Compose two-dimensional shapes (rectangles, squares, trapezoids, triangles, half-circles, and quarter-circles) or three-dimensional shapes (cubes, right rectangular prisms, right circular cones, and right circular cylinders) to create a composite shape, and compose new shapes from the composite shape. |  |
| 1.G. 3 | Partition circles and rectangles into two and four equal shares, describe the shares using the words halves, fourths, and quarters, and use the phrases half of, fourth of, and quarter of. Describe the whole as two of, or four of the shares. Understand for these examples that decomposing into more equal shares creates smaller shares. |  |
| Domain: Standards for Math Practice |  |  |
| Standard \# |  | Standard |
| MP1 | Making sense of problems and persevere in solving them. |  |
| MP2 | Reason abstractly and quantitatively. |  |
| MP3 | Construct viable arguments and critique the reasoning of others. |  |
| MP4 | Model with mathematics. |  |
| MP5 | Use appropriate tools strategically. |  |
| MP6 | Attend to precision. |  |
| MP7 | Look for and make use of structure. |  |
| MP8 | Look for and express regularity in repeated reasoning. |  |
| Unit Essential Questions: <br> - How do we show an equal part of something? <br> - How are numbers used to show fractions? <br> - How can I identify and describe solid figures by describing the faces, edges, and sides? <br> - What are the attributes of shapes? |  | Unit Enduring <br> - Objects can their geometric <br> - Parts of a wh |
| Unit Objectives: <br> - Students will describe 2D \& 3D shapes by their attributes. <br> - Students will compose 2D \& 3D shapes. <br> - Students will divide shapes into equal shares. |  |  |

| $\quad$ Evidence of Learning |
| :--- |
| Possible Formative Assessments: |
